

5458, PROFITABLE LIGHTING
MANUFACTURING COMPANY

\$ 360,000

This business was established almost 20 years ago by the current owner and has traded continuously since then. The Company manufactures and sells CSA certified, high-end landscaping lights for both residential and commercial use, using low-voltage light fixtures and transformers. Products are sold on a wholesome basis to customers throughout Canada.

The Company is known for its well-designed, high-quality proprietary lighting products. Its reputation for reliable, timely supply results in regular repeat business with its clients.

This business opportunity would be suitable for an owner-operator, or for an existing electrical

manufacturing company looking to expand their market or product lines. While experience in small-scale electrical manufacturing would be advantageous, the current owner can provide the necessary training for the new owner to assume their role in the business.

Opportunities exist to further grow the business with minimal additional investment, through additional marketing and promotion, and by expanding the product line.
