

4791, MOLE CONTROL BUSINESS

\$ 350,000

Fraser Valley, Fraser Valley District

Premium service business for sale in the Eastern Fraser Valley with excellent returns. This business already has the established annual contracts that automatically renew. Archie's Mole Control has very limited competition in their dedicated service area. This business has excellent opportunities to expand as the current owners are turning down contracts.

The Pacific mole loves fertile river deltas such as the Fraser Valley. Here you WILL encounter those pesky rodents that are on a mission to destroy lawns in their quest for food.

Owner will work with the new owner to transition the business.
